Spelling Words in Action

How many letters are in the alphabet?

Alphabet Acrobat

There are 26 letters in the alphabet. Not long ago someone **saw** a way to use all 26 letters in one sentence. Here it is:

“The quick brown **fox** jumps over a lazy dog.”

The sentence uses **all** 26 letters of the alphabet. See if you can find them all.

No one has been able to write a sentence using each letter just once. Can you **put** all the letters of the alphabet into one sentence? If your sentence has fewer than 33 letters, **tell** everyone you know. You may have set a **new** world record!
